About Kraus

At **KRAUS®**, we believe that great design has the power to transform people and spaces, and it doesn't have to come with a huge price tag. Our product collections are thoughtfully designed to provide an extensive array of choices in size, finish, functionality, and technology, all while prioritizing the best overall value. We try to continuously raise the bar for what an affordable sink or faucet can be, thoughtfully engineering our products with top-quality materials, trend-relevant designs, and practical functionality. Offering value that extends far beyond aesthetics, our selection of kitchen and bathroom fixtures help to improve daily life and make spaces more functional. To help ensure your satisfaction, we stand by our products with a lifetime limited warranty on all of our fixtures, and an expert customer-support team available to meet your needs at any time. Transform your kitchen and bath with Kraus® products that offer real solutions for everyday life.

Engineered for Excellence

Modern design must be adaptable and universal to account for the increasing need for flexible spaces and ever-evolving style preferences. Product innovation should be meaningful and authentic to make life easier so you can spend more time enjoying small moments of beauty and connection like prepping fresh ingredients, cooking with family, and entertaining friends.

We strive to create customizable products that can adapt to the way individual customers use their space, enhancing the usability of the kitchen. We've designed our workstation sinks to be compatible with a large selection of multi-functional accessories that make them highly adaptable to any space, and each of our kitchen and bathroom faucets are designed with universal aesthetics that allow them to fit seamlessly with a wide variety of decors and style preferences.

We are dedicated to making sinks and faucets into something more – something exceptional. Each of our products is designed with small details that make them more intuitive, streamlined, and ergonomic. We source best-in-class materials from around the globe and focus on optimizing production in order to provide high-end quality at competitive prices. To provide valuable kitchen and bathroom solutions, our thoughtfully engineered products are packed with functionality-boosting features that make everyday life easier. We strive to continuously raise the bar, because we know that great design needs to be both attractive and highly functional in order to create a place where people can gather and live life to the fullest.

TRU16

TRU16™ REAL 16-GAUGE STEEL

Thicker steel means a stronger sink. Kraus® uses heavy-duty extra thick TRU16™ Gauge Stainless Steel resulting in a sink that is noticeably sturdy with a quality look and feel. Sinks constructed using TRU16™ Gauge Stainless Steel offer long-lasting durability, with excellent resistance to corrosion, dents, and damage.

NOISEDEFEND™ SOUNDPROOFING TECHNOLOGY

NoiseDefend™ sound dampening technology features large super-silencer pads on all sides of the sink that help prevent noise and vibration from dishes and garbage disposal when the sink is in use. Anti-condensation undercoating reduces the risk of moisture build-up, helping prevent damage to the base cabinet

DURASHIELD™ PVD TECHNOLOGY

DuraShield™ PVD finish application results in a color coating that bonds completely to the steel, greatly improving durability and cleanability with superior resistance to abrasion, chips, and corrosion. Sandblasted matte texture helps prevent water spots and fingerprints for easy maintenance

DRAINASSURE™ WATERWAY

An integrated waterway channel that offers enhanced functionality, the DrainAssure™ waterway system is engineered to direct water into the drain even when the sink is full of dishes, helping prevent standing water in the bottom of the bowl

**Drain
Assure**

METALLTEK™ GRANITE COMPOSITE

Combining natural granite with polished metal particles, MetallTek™ granite composite material creates a shimmering effect with the look and feel of real stone and is designed to so stand up to daily use with excellent cleanability and resistance to thermal shock, chipping, and discoloration

KORE™ WORKSTATION SINK LEDGE

Workstation sinks are engineered with an integrated ledge that allows you to slide accessories across the sink so you can cut, prep, serve, and clean up right over the sink without losing any workspace on the kitchen counter. Helps, to create a multifunctional workspace to streamline all your kitchen tasks

T-316 MARINE GRADE STAINLESS STEEL

Engineered for extreme resistance to corrosion and rust, marine-grade T-316 Stainless Steel makes a perfect solution for outdoor applications, coastal environments, patios, and RV kitchens where enhanced durability is essential

EZSTACK™ NESTED PACKAGING

Sinks designed with nested dimensions allow for easy storage and transportation. To accommodate large projects for builders these sinks stack perfectly, increasing efficiency for everything from shipping to delivery to job-site containment

FUNCTIONALITY- BOOSTING OPTIONS FOR ANY LIFESTYLE

KRAUS® offers a range of options to suit every need and satisfy any style preference. Choose from a variety of sinks in a range of sizes and materials, from stylish granite composite and durable stainless steel sinks, to beautifully timeless fireclay sinks that elevate the style of any kitchen. Our portfolio includes a variety of kitchen sinks in every major mounting style to help make your next build or kitchen renovation project a success. Undermount sinks mount directly to the underside of the countertop, offering a beautifully streamlined look with a seamless transition from sink to countertop. Drop-in and dual mount sinks are easy to install and make a great replacement option for sinks that need to fit in an existing countertop cutout. Farmhouse sinks create a striking focal point, with extra-deep basins that can fit all of your dishes and large cookware. We also carry a wide selection of sinks for specialty applications, including durable outdoor sinks made with marine-grade steel, deep heavy-duty laundry/utility sinks, ADA-compliant workstations with modern design, and bar sinks in a range of style options

Kore

STAINLESS STEEL WORKSTATION SERIES

Discover a whole new way to cook, serve, and entertain with the Kore™ Workstation Series. Offering workstation functionality in the most popular sink material, all Kore™ Workstation Sinks are made with KRAUS TRU16™ – our thickest stainless steel – for commercial-grade durability. Engineered for enhanced functionality, an integrated ledge supports accessories that slide across the sink, streamlining all your kitchen tasks from meal prep to cleanup. Custom-fit accessories including cutting boards, roll-up drying racks, and serving sets with mixing bowls and colanders allow you to work right over the sink without taking up an inch of counter space

WORKSTATION DESIGN

Allows you to work directly over the sink saving countertop space

GRANITE COMPOSITE WORKSTATION SERIES

Handcrafted in Italy, Bellucci™ workstation sinks enhance the functionality of your kitchen with captivating style. Made from an advanced quartz composite material with great resistance to impact and thermal shock, these sinks offer the look and feel of real stone. The cutting-edge blend creates a hard, smooth, non-porous surface that offers excellent resistance to stains, chipping, and discoloration. Rounded corners and a stain-resistant non-porous surface are low-maintenance and easy to clean. Engineered with workstation functionality, Bellucci™ sinks support functionality boosting accessories to streamline your workflow from meal-prep to clean-up

ADVANCED GRANITE COMPOSITE

Made from 80% natural granite for durability with the look and feel of real stone

WORKSTATION DESIGN

Allows you to work directly over the sink saving countertop space

PREMIUM ACCESSORIES

Included with the sink to help you tackle a variety of kitchen tasks

WIDE RANGE OF SIZES

Available for easy compatibility with your space and all standard cabinet sizes

Forteza

GRANITE COMPOSITE SERIES

The Forteza™ Kitchen Sink Series is designed with a rounded profile and sweeping corners that create an elegant look in any kitchen. These sinks are made from a premium granite composite material that offers the luxurious look and feel of real stone with rich color. Perfect for DIY projects, the drop-in sink installs with any kitchen countertop material, with a rounded low-angled mounting deck that creates a smooth transition from sink to countertop for easy cleaning. Undermount options are also available for a sleek and streamlined aesthetic. Engineered with a sloped bottom for easy drainage and rounded corners that help reduce build-up over time

ADVANCED GRANITE COMPOSITE

Made from 80% natural granite for durability with the look and feel of real stone

NON-POROUS SURFACE

Turino

FINE FIRECLAY SINK SERIES

Crafted in Italy, the Turino™ Sink Series exemplifies a stunning union of timeless design and modern functionality. Compression-molded from fine fireclay with solid core construction, Turino™ sinks stand up to heavy use and are resistant to impact and thermal shock. Kiln-fired at 2300°F, an extra-thick porcelain enamel coating creates a resilient high-gloss surface with excellent resistance to scratches and stains. The ultra-fine material structure allows for an even application of glaze, helping prevent cracking and crazing that can occur with sinks made from coarse-grain material

SOLID CORE CONSTRUCTION

Stands up to heavy use and helps resist impact and thermal shock

FINE FIRECLAY BLEND

Allows for even application of glaze, helping to prevent cracking and crazing

HEAT RESISTANT

Up to 300°F; not prone to cracking from hot plates and cookware

RESILIENT PORCELAIN ENAMEL FINISH

Fired at 2300°F to create a highly durable sink that's resistant to stains

EASY TO CLEAN

Ultra-smooth non-porous surface is extremely easy to keep clean

MADE IN ITALY

Time-tested quality and high-end style from the source of the world's finest fireclay

Pintura

PORCELAIN ENAMELED STEEL SINKS

Express yourself with the distinctive style of KRAUS® Pintura™ Series sinks. Offering a timeless appeal similar to classic enameled cast iron, this sink collection is engineered with a resilient steel core that is approximately 65% lighter than cast iron – offering endless design possibilities while eliminating the need for specialized installation. Each sink is fired at high temperatures of 1500°F, creating a smooth non-porous porcelain enamel surface that's highly resistant to impact, scratches, chips, and stains. The smooth non-porous surface is easy to clean for minimal maintenance that will allow you to enjoy this timeless sink for years to come

PORCELAIN ENAMEL FINISH

Double-fired at 1500°F to create an extremely durable sink surface

HIGHLY HEAT RESISTANT

Thick porcelain enamel coating is not prone to damage from hot cookware

NOISEDEFEND TECHNOLOGY

STAINLESS STEEL SINK SERIES

Engineered for durability, Dex™ sinks are made with high-performance 16-gauge stainless steel to stand up to the wear and tear of busy kitchens. The contemporary design features rounded corners for a fresh look that brings modern style to any kitchen, and a wear-resistant Radiant Pearl finish with circular brushing that helps mask scratches and scuffs that can occur over time for a long-lasting lustrous sheen. Dex™ Sinks are engineered with DrainAssure™ waterway channel, designed to direct water into the drain even when the sink is full of dishes, helping prevent standing water in the bottom of the bowl

Premier

STAINLESS STEEL SERIES SINKS

Designed for universal appeal and long-lasting durability, Kraus® Premier Sinks feature rounded corners and sloping sidewalls that create a soft transitional look in any kitchen. Undermount installation makes cleaning easy, with no exposed mounting deck to trap food and debris, creating a seamless transition between sink and countertop. Designed with sweeping rounded corners these sinks are easy to wipe clean, helping reduce build-up over time. Combining quality, convenience, and style in one attractive package, these sinks feature durable construction and a wear-resistant satin finish – the perfect choice for any home improvement project

HEAVY-DUTY 16 GAUGE STAINLESS STEEL

Designed for excellent durability and high performance

NOISEDEFEND TECHNOLOGY

Super-silencer pads on all sides of the sink help prevent noise and vibration

ENGINEERED FOR EASY DRAINING

Sloped bottom helps prevent water from pooling in the sink

ROUNDED CORNERS

Resist build-up and allow for easy cleaning

Kraus

STYLISH AND FUNCTIONAL FOR ANY KITCHEN

Make cooking and cleaning easier while enhancing the look of your kitchen décor with a wide range of kitchen faucets to suit your every need. Pull-down faucets offer flexible functionality and a variety of style options from traditional to modern. Commercial-style faucets provide a professional look with the added functionality of a pull-down spray head. Kraus® tech faucets are engineered with innovative features including hands-free sensor activation that helps you keep your kitchen cleaner. Filter faucets allow you to access great-tasting purified water right at your kitchen sink, and are compatible with our 2-step filtration system that fits in your kitchen cabinet for convenient use. Beverage faucets make a great addition to your main kitchen faucet, or as a stand-alone faucet to pair with your choice of bar sink

Kitchen Faucets

Faucet Innovations

SPOT-FREE FINISH

Spot Free Finishes help prevent water spots and fingerprints for a low maintenance faucet finish that resists corrosion and is easy to keep clean without the use of abrasive chemicals or cleaners

REACH™ PULL-DOWN TECHNOLOGY

Pull-down sprayers with Reach™ technology offer maximum maneuverability with an easy-retract hose and swivel adapter that enables a full range of motion so you can flex, pivot, and reach all around the sink

EASY-CLEAN NOZZLES

Easy-to-clean soft rubber sprayer holes allow you to wipe away mineral build-up with the brush of a finger, helping ensure long-lasting performance and powerful flow

QUICKDOCK™ MOUNTING ASSEMBLY

For hassle-free installation, the QuickDock™ mounting assembly with drop-in base allows you to install your faucet from above the counter, eliminating the need to secure it underneath the sink

DUOPURE™ TECHNOLOGY

Faucets engineered with DuoPure™ Technology feature two independent waterlines for tap and filtered water, preventing the possibility of cross-contamination and ensuring 100% purified water every time

SELF-CLEANING FILTER FAUCET SYSTEM

After dispensing filtered water, 2-in-1 filter faucets activate self-cleaning function, flushing remaining fluid from filter line to prevent bacteria from accumulating

MOTION SENSOR TECHNOLOGY

Faucets equipped with touchless sensor technology allow you to activate your faucet without touching the handle or spout when cleaning up, helping reduce germ transfer during messy tasks like preparing raw foods

Bolden

COMMERCIAL DESIGN FOR THE HOME KITCHEN

Creating a captivating industrial look with a high-arc open coil spout, the Bolden™ commercial-style faucet offers the advantage of a compact 18" height that fits underneath most kitchen cabinets. The highly functional design features a pull-down spray head with Reach™ technology for superior maneuverability and an extended range of motion, allowing you to reach all around the kitchen sink. The dual-function sprayer switches between an aerated stream for filling pots and pitchers, and a powerful spray to rinse dishes and wash away stubborn food residue. Also available in sensor activated and filter faucet models

COMMERCIAL-STYLE PULL-DOWN W/ REACH™ TECHNOLOGY

Open-coil spout with easy-retract pull-down hose for maximum maneuverability

DUAL FUNCTION SPRAYER

Switch between aerated stream and powerful spray

EASY-CLEAN NOZZLES

Oiletto

SIMPLE & ELEGANT MODERN DESIGN

With clean lines and exceptional ergonomics, the Oiletto™ Series embodies the simple elegance of modern kitchen design. Every design detail is carefully thought through to create a perfectly balanced silhouette that enhances any kitchen or laundry room. Select faucets in the Oiletto™ series are designed with a QuickDock™ mounting assembly, an innovative feature that allows you to install the faucet from above the counter, eliminating the need to secure it underneath the sink. Top-quality components include premium ceramic cartridges and eco-friendly aerators that reduce water waste without sacrificing pressure. Available in pull-down, commercial-style pull down, and bar faucet models

Touchless Sensor

WATER WITH JUST THE WAVE OF A HAND

Kraus® Touchless Sensor Faucets allow you to bring the latest innovation in faucet design into your kitchen alongside uncompromising style. Engineered with hands-free activation, this faucet allows you to turn water on and off with just the wave of a hand. The convenient design means that you can activate your faucet without touching the handle or spout when cleaning up, helping reduce germ transfer during messy tasks. The sensor with a built-in timer sits on the side of the faucet helping prevent accidental activation and automatically stops the flow of water after 3 minutes to help prevent water waste

MOTION SENSOR DESIGN

Touchless activation allows you to turn water on and off with the wave of a hand

BUILT-IN TIMER

Automatically stops the flow of water after 3 minutes to help prevent water waste

Filtration System

FILTERED WATER ON DEMAND

The KRAUS® Purita™ 2-Stage Under-Sink Filter System improves water quality by removing contaminants as small as 0.5 microns so that you can enjoy safe, clean, great-tasting water. The 2-filter system contains carbon block and polypropylene filters that work together to reduce contaminants such as lead, select pharmaceuticals, and VOCs while removing chlorine taste and odor for great-tasting water. The long-life filters last for up to 6 months or 700 gallons, providing as much clean water as 5,300 standard 16.9 oz. disposable water bottles. A digital display monitors changes in water quality, battery life, and filter status to maximize the life of your filter

IMPROVES WATER QUALITY

By removing up to 98% of lead and other common impurities

UNIVERSAL DESIGN

Compatible with any filter faucet with standard 1/4" filtered water connections

LONG-LASTING CARTRIDGES

Filter up to 700 gallons of water and lasts up to 6 months

DIGITAL DISPLAY

Monitors the status of your filters, battery life, and changes in water quality

2-in-1 Filter Faucets

BETTER TASTING WATER AT YOUR FINGERTIPS

With a sleek contemporary silhouettes Kraus® Water Filter Kitchen Faucets combine the benefits of a commercial style pull-down faucet with the convenience of an integrated drinking water filter tap. The 2-in-1 design eliminates the need for a separate filter faucet, streamlining the look and functionality of your kitchen. Engineered with DuoPure™ Technology, these faucets feature two independent supply lines for regular and filtered water, preventing cross-contamination and helping ensure that you get purified water every time. The universal design connects to your choice of undercounter water filtration systems like Reverse Osmosis, for easy access to filtered water for drinking or cooking

DUOPURE™ TECHNOLOGY

Features two separate water lines for filtered water and regular tap water

3-FUNCTION FAUCET

Switch between aerated stream to powerful spray or dispense filtered water

PREMIUM CERAMIC CARTRIDGE

Tested over 500,000 cycles to help ensure lasting leak-free use

Bathroom

ELEGANT STYLE FOR YOUR BATHROOM

Imagine a bathroom where you can relax and let the troubles of the day soak away. Is it a tranquil transitional space where you are surrounded by soft colors and serenity, or a minimalist monochromatic space with a modern edge? Whatever your personal preference, you can bring your design dreams to life with our extensive selection of sinks in a variety of shapes, styles, and colors that will inspire you to create a space that you want to spend time in

Bathroom Sinks

THIN CERAMIC BATHROOM SINKS

Made from high quality vitreous china, Viva™ Series ceramic sinks are designed using a innovative molding process that allows for ultra-slim edges without sacrificing durability. The non-porous ceramic sink surface is fired at high temperatures for a high-gloss finish that's scratch resistant and easy to clean. Easy above counter installation allows you to update your bathroom sink without replacing the entire vanity. To complement any décor, Viva™ Series sinks are available in a selection of on-trend colors, from classic white to subtle neutrals to bold modern black. A pop-up drain with solid core ceramic top is included for a perfect style match

Glass Sinks

ADD A SPLASH OF COLOR TO YOUR SPACE

Add a touch of color to your bathroom with Kraus® Glass Vessel Sinks. Handcrafted from tempered glass, these modern bathroom sinks coordinate with a variety of décor styles. The vessel installation creates a dramatic look with contemporary appeal and is easy to install with any countertop material from stone, to wood, to laminate. Above-Counter Installation frees up space on top of the bathroom vanity and coordinates with any wall-mount or vessel faucet. Glass surface is non-porous and requires minimal maintenance to keep clean

ELEGANT STYLE FOR ANY SPACE

Kraus® offers a curated collection of bathroom faucet designs that will elevate the style of your next bathroom project. Bathroom Faucets are available in selection of vessel and basin models, with style options from streamlined and modern, to understated and elegant transitional designs. Tall and sleek, vessel faucets pair with your choice of vessel sink to create a stunning centerpiece in any bathroom. Designed for simple installation, these distinctive faucets are an easy choice for impactful style, whether you're remodeling or building a brand new bathroom. Basin faucets are a great option for homeowners that want to make a style statement with a neat and uncluttered look. The variety of faucet finishes creates an even wider spectrum of effects that will compliment any decor

Bath Faucets

Arlo

TIMELESS AND EXQUISITELY ELEGANT

Add elegant style to any bathroom with the Arlo™ Bathroom Faucet Series. A stunning combination of clean, refined lines and an arched spout give the classically-inspired design a timeless appearance. The gracefully curved single lever handle complements the shape of the spout and allows you to easily adjust water temperature and flow. Featuring an eco-friendly aerator, this faucet delivers up to 1.2 gallons per minute with a splash-free aerated stream. Available in basin and tall vessel models for maximum design flexibility, this single hole faucet fits neatly with your choice of bathroom sink and comes with pre-attached water lines for easy installation.
